

# SELFDUALITY IN SPIRITUAL GROWTH. CONFLICT RESOLUTION.

LAVOSLAV ČAKLOVIĆ  
UNIVERSITY OF ZAGREB, CROATIA

ABSTRACT. A mathematical model of the Goal-oriented thinking is described. We introduce and explain the mathematical concept of the basic notions: *criteria, decision graph, ranking, hierarchy, duality and self-duality*. A mental process of conflict resolution in spiritual growth is considered as an application of Potential Method which provides the convergence of iterative correction of a mental conflict. Finally, a simple numerical example illustrates the background theory.
